ADDITIONAL EXPERIENCE

Purchasing Agent | Zygo | Middlefield, CT

04/2023 – 05/2024

- Negotiated and secured advantageous pricing from new and existing vendors, leading to a 5% reduction in overall material costs.
- Successfully managed purchase orders for a diverse range of materials, ensuring strict adherence to company quality standards and specifications.
- Expedited shipments and resolved critical supplier discrepancies to maintain uninterrupted production schedules.
- Adapted to support other Buyers during peak periods while maintaining personal workload and deliverables.

Full Stack Web Developer | UConn Full Stack Web Development Bootcamp | Online

11/2022 – 04/2023

- Refactor existing websites for accessibility and SEO.
- Create high-quality web applications for a variety of topics building both the frontend and the backend from nothing.
- Take already written source code with a frontend and write the backend making it dynamic and user friendly or vice versa.
- Communicate and coordinate with an alternating team of peers to create a fully functional application with beautifully integrated UI.

Multichannel Transmission System Operator and Maintainer | CT Army National Guard

12/2014 – 12/2020

- Cross trained in various IT disciplines. (Network administration, hardware and software installation, satellite or RF equipment proficiency, cybersecurity and more)
- Established means of emergency communications for hundreds of personnel during Hurricane Maria in Puerto Rico via satellite, radio, and internet.
- Moved and communicated efficiently in a team, completing training and real-world IT focused missions.
- Trained and mentored over 20 soldiers in a variety of topics and tasks, keeping unit morale and efficiency up.
- Led a small team of 4 in the absence of my team leader. Also led a team of 10 during a 3-week leadership development course.
